

Preface

The organizing committee of MEIT 2024 was proud to present the proceedings of the 4th International Conference on Mechatronics Engineering and Information Technology (ICMEIT 2024), held on July 27-28, 2024 in Dalian, China.

The aim as well as objective of ICMEIT Conference is to present the latest research and results of scientists related to Mechatronics Engineering and Information Technology and related topics. This conference provides opportunities for the delegates to exchange new ideas face-to-face, to establish business or research relations as well as to find global partners for future collaborations. We hope that the conference results will lead to significant contributions to the knowledge in these up-to-date scientific fields. This two-day conference is being organized in technical association with Asian Union of Information Technology, Research Center of Engineering and Science, and include invited keynote talks and oral paper presentations from both academia and industry to ignite our young minds, to initiate them in the field of meaningful research and thereby enrich their existing knowledge.

4th ICMEIT has received 51 manuscripts. All full paper submissions to this conference would send to at least two reviewers and evaluated based on originality, technical or research content, correctness, relevance to conference, contributions, and readability. The full paper submissions will be chosen based on technical merit, interest, applicability, and how well they fit a coherent and balanced technical program.

Hopefully, all participants and other interested readers benefit scientifically from the proceedings and also find it stimulating in the process.

With our warmest regards,

Haifeng Hu, Beau Adams

Dalian, China
