

# Preface

The 2025 3<sup>rd</sup> International Conference on Architecture, Civil Engineering and Geotechnical Engineering (ACEGE 2025) was successfully held during December 13-14, 2025 in Atlanta, USA. This event has the objective of creating an international forum for academics, researchers, and scientists from worldwide to discuss results and proposals regarding to the soundest issues related to architecture design, construction technology, civil engineering, structural engineering, and geotechnical engineering.

We are confident that ACEGE 2025 will play an important role in encouraging activities in research and development of architecture, civil engineering and geotechnical engineering, and give excellent opportunities for collaboration between research institutions. The broad scope of this event provides a unique meeting ground for researchers spanning the whole spectrum of our discipline. We hope from over the day, some fruitful collaboration can be established.
