

Preface

It is with great pleasure to introduce the proceedings of the 2026 7th International Conference on Mechanical Engineering, Civil Engineering and Material Engineering (MECEME 2026). The conference was held during April 25-26, 2026 in Lyon, France.

MECEME series provides a forum for accessing to the most up-to-date and authoritative knowledge from both industrial and academic worlds, sharing best practice in the fields of mechanical engineering, green manufacturing, architectural design, construction technology, civil engineering, and material engineering. This conference provides an opportunity to highlight recent developments and to identify emerging and future areas of growth in these exciting fields.

MECEME 2026 has the main purpose to bring researchers and scholars to share their knowledge and experiences. This conference provided delegates with a good opportunity to exchange new ideas, establish research and/or business contacts, and establish potential partnerships for global partnerships. We sincerely hope that this conference will help to increase knowledge in relevant scientific and academic fields.
